Margit is a scholar stationed at Dol Tirthana, who specializes in elven culture. She commissions the witcher in *Good Money* quest and appears in *What Lurks In the Nemeta*.

Personality

Margit is viewed as eccentric, which creates tension between her and the locals. However, she is professional and straightforward when doing business. She commissions the witcher to help her with research, and after the matter has been taken care of, she loses any interest in further conversation. She treats people very objectively, as even the news of her co-worker dying barely shocks her.

Related quests

Finding her is the main objective in *Good Money* quest, as she appraises the elven statue and commissions the witcher to find ingredients for her. She appears briefly in *What Lurks In the Nemeta*, as she pays the witcher for bringing her associate's notebook.
